

BodyGuard Water Purifiers

Technical Specifications

BodyGuard® Micro Water Filter Specifications*	
Flow Rate per minute gallons	4 gpm
Average Capacity gallons	10,000 gal.
Operating Pressure (min psi / max psi)	10/100
Particle Retention (microns)	0.5 nominal 1 absolute
Temperature Range F° (C°)	30° - 125° (0° to 45°) - do not freeze
Pressure Vessel Length	14.5 inches
Pressure Vessel Diameter	3.25 inches
Pressure Vessel Legs width/height	5.8 inches/ 4.5 inches
Pressure Vessel Weight (full with water)	7 pounds
Hanger Length	9.5
Replacement Module	BodyGuard Replacement Cartridge
